Materials Per Candle

- 11.5 oz Beeswax (filtered)
- 0.865 oz Fragrance Oil (layered)
- 1 Glass Jar with Lid
- 1 Wick
- 1 Wick Sticker
- 1 Front Label
- 1 Warning Label
- 1 Lid with Branding ('We heat ourselves.')

Tools Needed

- Digital Scale
- Double Boiler or Melter

- Thermometer
- Stirring Stick or Spoon
- Wick Centering Tool or Pencil
- Scissors or Wick Trimmer
- Branding Iron or Woodburner (for lids)

Production Instructions

1. Prepare workspace. Clean jars and lay out all supplies.
2. Attach wick to center of jar using wick sticker.
3. Weigh 11.5 oz beeswax. Melt slowly using double boiler.
4. At ~160F, add 0.376 oz Pine + Cedarwood. Stir for 1 minute.
5. Pour into jar just to cover the wick tab (1/3 depth).
6. Cool for 20-30 mins until layer firms up.
7. Reheat wax and add 0.263 oz Birch Tar + Burnt Wood. Stir gently.
8. Pour second layer slowly on top of first.
9. Cool again until semi-solid.
10. Reheat final batch. Add 0.226 oz Vetiver + Clove + Tobacco. Stir.
11. Pour final layer to desired fill height. Let cool fully.
12. Trim wick to 1/4 inch.
13. Apply labels and branding.
14. Burn quote into lid carefully with adult support.
15. Cure for 24-48 hours before sale or gift.

Branding and Finishing Notes

- Quote to burn into lids: "We heat ourselves."
- Candle name: Northern Rebellion
- Label tone: Bold, grounded, handmade
- Lid: Optional black matte finish
